EXECUTIVE SUMMARY

- The IUPUI Alumni Survey began in 1992 with a revised Graduate Alumni Survey first administered in 2011. The Graduate Alumni Survey has 6 sections focusing on graduates' satisfaction with their overall IUPUI experience, satisfaction with their assistantship, the impact of IUPUI on their learning, further education, and current employment. 2,735 alumni who received a Master's, Doctoral-Research, or Doctoral-Practice degree from any Indiana University or Purdue University school located on the IUPUI or IUPUC campus received an e-mail invitation to participate in the survey. 401 responded for a response rate of 14.7%.

Current Employment

- Approximately 93% of Doctoral and 88% of Master's respondents indicated they are working for pay full- or part-time (Figure 1).
- Seventy-two percent of working Doctoral respondents and 76% of working Master's respondents reported that they are working in Indiana (Figure 4).
- About 82% of working Doctorate respondents indicated their job is directly related to their IUPUI graduate program. Sixty-one percent of working Master's respondents indicated the same (Figure 5).
- Ninety-nine percent of working Doctorate respondents reported that their IUPUI education prepared them very well for their job. Eighty-nine percent of Master's respondents indicated the same (Table 3).

Further Education

- Approximately 18% of Master's respondents and 14% of Doctorate respondents reported that they are enrolled full- or part-time in a program leading to another degree (Figure 8).

Impact on Student Learning

- About 77% of Doctorate respondents and 69% of Master's respondents reported that they could very effectively or effectively conduct original research and scholarship (Table 4).
- Ninety-eight percent of Doctorate respondents and 94% of Master's respondents indicated that they very effectively or effectively think critically (Table 4).

Satisfaction with IUPUI Experience

- One hundred percent of Doctoral respondents reported they were very satisfied or satisfied with their academic experiences at IUPUI. Approximately 99% of Master's respondents indicated the same (Table 5).
- About 99% of Doctorate respondents and 92% of Master's respondents reported that they were very satisfied or satisfied with the quality of courses in their major area (Table 5).

Assistantships

- Of master's respondents with an assistantship, about 92% indicated that their assistantship prepared them somewhat well or very well for their current job (Table 6).

INTRODUCTION

The IUPUI alumni survey began in 1992 with funding IUPUI received as part of the 1990 Perkins Vocational and Applied Technology Act. In 2011, the survey was revised and a Graduate Alumni Survey was created. The current iteration of the IUPUI Graduate Alumni Survey was created by staff in Information Management and Institutional Research (IMIR) with feedback from Deans, Associate Deans, the Center for Service and Learning, and Career Services. The original Undergraduate Alumni Survey, the results of the 2008 Graduate Student Survey, and the IUPUI Principles of Graduate and Professional Learning (PGLs) were consulted when constructing this survey. Currently, the Graduate Alumni Survey has 5 sections focusing on graduates' satisfaction with their overall IUPUI experience, satisfaction with their assistantship, the impact of IUPUI on their learning, further education, and current employment.

A sample of 4,134 graduate students who graduated with a Master's, Doctoral-Practice, or Doctoral-Research degree from any Indiana University or Purdue University school located on the IUPUI or IUPUC campus between Spring 2008 and Summer 2010 was provided to IMIR by the Indiana University Alumni Association. All alumni were in this sample was sent an e-mail inviting them to participate in the survey. Of the 4,134 students contacted, 1,397 of those had invalid e-mails and two declined to participate, leading to an adjusted sample size of 2,735. Reminder e-mails were sent to non-respondents two, four, and six weeks following the initial e-mail. A total of 401 alumni responded to the survey for a response rate of 14.7%.

The following is a report of the responses Master's and Doctoral (Doctoral –Practice and Doctoral-Research) degree recipients to the 2011 IUPUI Graduate Alumni Survey. Demographic and academic characteristics of respondents and the entire sample are listed in Tables 1 and 2 below. For further information, including other reports derived from the 2011 IUPUI Graduate and Undergraduate Alumni Surveys, please consult the Alumni Surveys section of the IMIR website, located at imir.iupui.edu/surveys/alumni.

| 40 years of age or older | 33.9 | 23.6 | 9.5 | 5.4 |

^a Since most participants graduated before the most recent ethnic codes were implemented, pre-2010 ethnic codes were used in this analysis.

^b For spring semester graduates, age is calculated as of the day of commencement. For fall and summer graduates, age is calculated as of the degree date provided by their school. For most schools, the date is December 31 for fall graduates, June 30 for summer I graduates, and August 31 for summer II graduates (though there is variation between schools).

SECTION 1: CURRENT EMPLOYMENT

Respondents were asked to indicate their current employment status and provide information about their current job. More than 88% of both Master's and Doctorate respondents indicated that they were working for pay full- or part-time. Of those, 76% of Master's and 72% of Doctorate respondents indicated they were working in Indiana. Ninety-two percent of Master's and 99%

of Doctorate respondents reported that their job is directly related or somewhat related to their IUPUI graduate program. Approximately 89% of employed Master's respondents and 99% of employed Doctorate respondents reported that their IUPUI education prepared them very well or somewhat well for their current job.

SECTION 2: FURTHER EDUCATION

Respondents were asked if they were currently pursuing further education and how well their IUPUI education prepared them for their degree. About 18% of Master's respondents and 14% of Doctorate respondents reported that

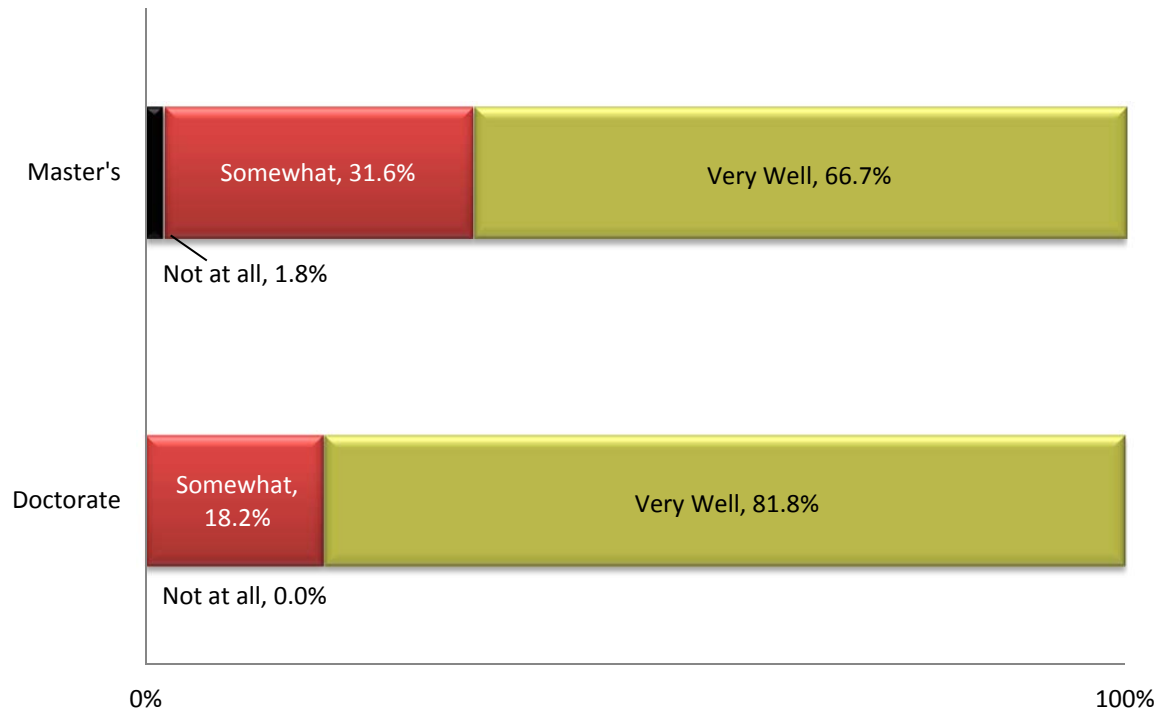

they are enrolled full- or part-time in a program leading to another degree. Of those, approximately 98% of Master's respondents reported that their IUPUI education prepared them very well or somewhat well to pursue this degree.

SECTION 3: IUPUI EXPERIENCE

Alumni were asked to indicate their effectiveness with regards to a series of skills related to the IUPUI Principles of Graduate Learning (PGLs) and Purdue Graduate Learning Outcomes. Respondents were also asked to indicate their general level of satisfaction with their experiences at IUPUI. Ninety-three percent of Master’s and 96% of Doctorate respondents reported that they were very effective or effective at acquiring in-depth knowledge in your discipline. About 83% of Master’s respondents and 92% of Doctoral respondents indicated that they were very effective or effective at understanding research or scholarship in their discipline.

Approximately 99% of Master’s respondents and 100% of Doctorate respondents indicated they were very satisfied or satisfied with the overall

quality of their academic experiences at IUPUI. At least 85% of both Master’s and Doctoral respondents indicated that they were very satisfied or satisfied with their opportunities to participate in personal research. Nine out of ten Master’s respondents and 94% of Doctorate respondents reported that they would definitely or probably go to IUPUI if they could start over again.

Fifteen percent of Master’s respondents and 13% of Doctorate respondents indicated that they had an assistantship while completing their degree at IUPUI. Of Master’s respondents with an assistantship, 92% reported that their assistantship prepared them very well or somewhat well for their current job and 96% indicated that their assistantship prepared them very well or somewhat well for further education.

**APPENDIX B:
IUPUI GRADUATE ALUMNI SURVEY**

IUPUI Graduate Alumni Survey

IUPUI continuously evaluates the quality of the college experience for students and the effect of the university experience on its graduates. In this survey we ask for information about four areas: (1) your experiences at IUPUI and your involvement in the community; (2) IUPUI's impact on your learning; (3) your plans for further education; and (4) your current employment. We appreciate your willingness to answer these questions. Your answers are confidential and will only be used for program assessment purposes.

ALL ANSWERS ARE CONFIDENTIAL. NAMES ARE NOT CONNECTED TO ANSWERS.

If you have any questions, do not hesitate to call Steve Graunke in the Office of Information Management and Institutional Research at 274-3617 or via e-mail at sgraunke@iupui.edu.

Thank you in advance for your participation.
