

Passport Report

*A Summary of Passport Achievements
and the Impact of Ivy Tech Students at IUPUI*

January, 2023

Prepared by the Analysis and Institutional Effectiveness and the Office of Center for Transfer and Adult Students (CTAS)

Welcome to the 2022 Passport Report

The Passport program is designed to facilitate transfer of Ivy Tech Central Indiana students to IUPUI. The reports below provide comprehensive information on enrollment, demographics, credit hours transferred, GPAs, and retention rates of new students at IUPUI, especially new transfers from Ivy Tech Central Indiana attending IUPUI.

Key Highlights

- Ivy Tech freshmen and sophomore transfers were retained at a higher rate compared to all other IUPUI freshmen and all external transfers, except new transfers from Purdue West Lafayette.
- Ivy Tech junior and senior transfers were retained or graduated at a higher rate than all other external transfers, except new transfers from Purdue West Lafayette.
- There was a large increase in the percentage of new transfers Ivy Tech with an associate degree in Fall 2022 (57%) compared to the previous fall term (52%).
- New transfers from Ivy Tech continued to bring in more transfer credits compared to transfers from other institutions. In Fall 2022, Ivy Tech transfers brought in 45.6 credits on average, while transfers from other schools brought in 30.5 credits.
- New transfers from Ivy Tech were more likely to be enrolled within specific schools (95%) than new transfers from other schools (88%).
- The proportion of Ivy Tech's students of color in the Indianapolis service area (37%) was nearly twice as much as the proportion of this group of students in all other Ivy Tech service areas (20%).

Passport Mission

- Ensure general coordination between the two institutions regarding credit courses, non-credit courses, student services, needs assessment, and marketing.
- Monitor and help promote coordinated student services to facilitate student transfers, concurrent enrollment, and course credit transfer.
- Promote both institutions as distinct post-secondary institutions with differentiated missions which collaborate to meet the full range of community needs.
- Collaboration with students, staff, faculty, and administrators at both IUPUI and Ivy Tech is paramount in the Passport's ability to provide services that support transfer student preparation, planning, transition, and overall success.

Passport Services

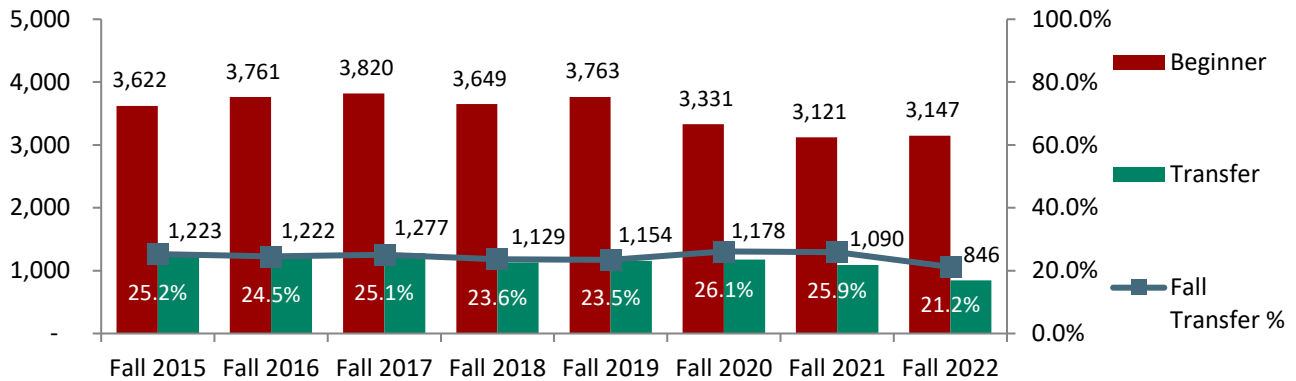

- Pre-Transfer Advising
- Creation and Maintenance of Articulation Agreements
- Transitional Programming Marketing Materials
- Information on the Passport to IUPUI Scholarship
- Ivy Tech Guest Student Application Advisor Training and Resources

- Due to COVID-19, Ivy Tech remained almost fully online in the summer and fall 2021 semesters as well as the spring 2022 semester. Therefore, there was not a lot of in-person traffic on campus and in-person events were still rare.
- Since the Passport program became a part of the Center for Transfer and Adult Students, there is not an official stand-alone Passport office for students to reach out to. The students who reached out to the CTAS office were a mixture of transfer students, adult students, and Passport students.

Fall to Spring Count Comparisons

Comparison of New Beginners to New Transfers in Fall Semesters

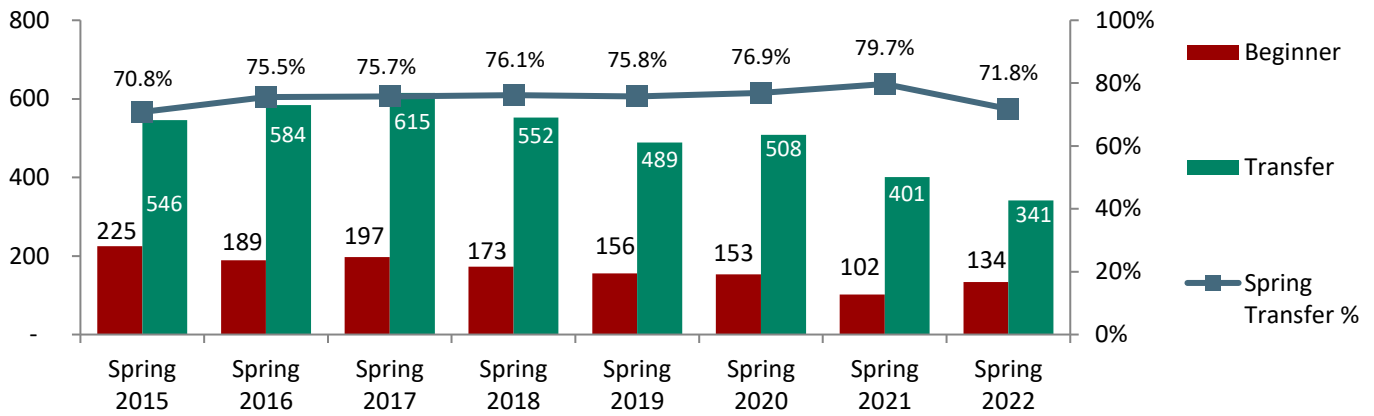

Transfer Students Headcounts Comparison between Ivy Tech and Other Schools

	Fall 2015	Fall 2016	Fall 2017	Fall 2018	Fall 2019	Fall 2020	Fall 2021	Fall 2022
Ivy Tech	602	589	532	507	537	578	521	413
Transfers From Other Schools	621	633	745	622	617	600	569	433

The number of new beginners in Fall 2022 is slightly higher than the previous fall. However, the number of new transfers continued to decline significantly for the past two years. As a result, the proportion of new transfers in Fall 2022 is substantially lower than the previous fall.

Fall to Spring Count Comparisons

Comparison of New Beginners to New Transfers in Spring Semesters

	Spring 2015	Spring 2016	Spring 2017	Spring 2018	Spring 2019	Spring 2020	Spring 2021	Spring 2022

Transfers From Other Schools	279	298	320	301	249	275	190	190

The number of new beginners in Spring 2022 increased slightly compared to Spring 2021. In the meantime, the number of new transfers in Spring 2022 was slightly lower than the previous spring term. Therefore, the proportion of new transfers in Spring 2022 was significantly lower than Spring 2021.

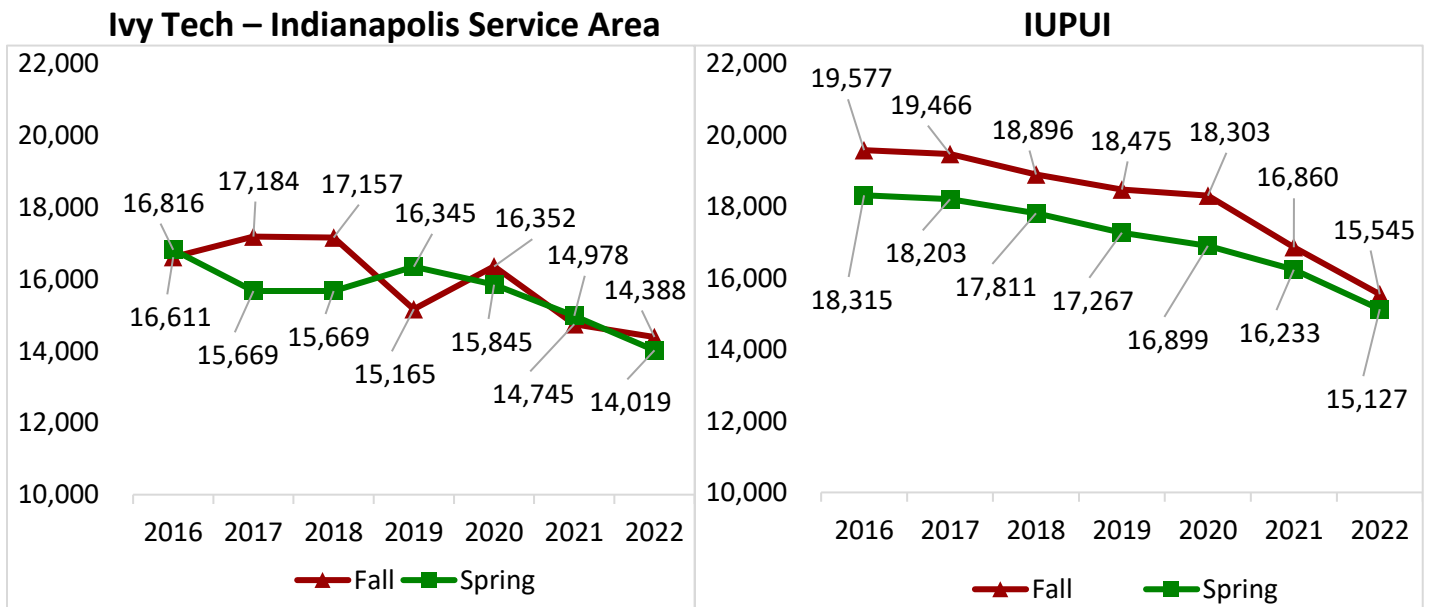

Fall to Spring Count Comparisons

Academic Year, New Student Contributions by Admit Type and Semester

The proportion of new transfers starting in the spring semester was slightly lower than the previous year. It was due to the number of new transfers being lower in the spring of 2022 than the previous spring. Meanwhile, the proportion of new beginners starting in the spring semester was slightly higher the previous year. It was because the number of new beginners in the spring of 2022 was higher than the previous spring.

Comparison of Fall and Spring Total Undergraduate Enrollments by Academic Year

Undergraduate enrollment at IUPUI in both fall and spring terms was lower than the previous year. Similarly, Ivy Tech’s Indianapolis Service Area also experienced significant decline in fall and spring terms for the past couple academic years.

Despite the total number of new transfers from Ivy Tech being lower than the previous academic year, the proportion of those students who enrolled full time was slightly higher than the previous year. Similarly, the overall total number of new transfers from other schools and new beginners was also lower than the previous year. However, there were more new transfers from other schools and new beginners who enrolled full time compared to the previous academic year.

The percentages of students of color were higher at all student categories compared to the previous year. The students' age distribution remained the same across the board.

Demographic Profile of First-Time Student Cohorts Academic Year 20-21 and 21-22

General Education Core Completion Status by First Time Student Cohorts AY 20-21 and AY 21-22

Incomplete	0	7	0	0

* There was a change in coding system in AY 2021-22 to classify General Education Core requirements. Starting in AY 2021-22, incomplete classification being coded as not required. In this report, the change has been manually applied to the AY 2020-21 students to get a consistent comparison.

Although the number of students from Ivy Tech who entered IUPUI with their General Education Core completed was lower than last year, the proportion of this group of students remained the same. This is because the number of transfers from Ivy Tech was lower in the 2021-2022 academic year compared to the previous year.

Also, Ivy Tech transfers were retained or graduated at a lower rate than all other IUPUI juniors and seniors, but higher than all external transfers except new transfers for Purdue West Lafayette.

Articulations of Transfer Credits within TES (Transfer Evaluation System)

Number of Courses Articulated in TES (Transfer Evaluation System) by Major Feeder Institutions

The Center for Transfer and Adult Students (CTAS), in conjunction with the Office of Undergraduate Admissions, has been the leader across all IU campuses statewide in utilizing the Transfer Evaluation System (TES). TES is used for transfer equivalency recording and contains a student-facing portion of the program known as Transferology. TES and Transferology are used by hundreds of colleges nationwide and are quickly becoming the leader in assisting students with quickly finding their equivalencies. More than 10,900 Ivy Tech courses now have articulations in TES, compared to about 5,800 from all other colleges and universities in Indiana.

The number of deferred students was significantly lower than the previous year and the proportion of the students of color also slightly decreased by more than 3%. It was mostly due to decrease in the Latinx and African American population. Similar to the previous year, there were more female students who deferred than male students.
