### Official Graduation Rates Report Student Information & Fiscal Services

1991 Full-Time Beginners Vol. 6, No. 1

This report summarizes the data submitted to IPEDS with the Graduation Rates Survey. The cohort is based upon degree-seeking students who matriculated in the summer or fall of 1991 and were full-time in the first semester. The campus specific "Institutional Graduation Rates Summary" sheets attached subdivide this cohort by degree-seeking status at time of entry (baccalaureate or other degree) and provide figures on the number and percentage of students receiving degrees within 150% of program length. The graduation rates illustrated on these sheets (A - E) represent the various ways that numbers can be used for comparison with other types of programs and institutions. The final graduation rate (E) aggregates all these subsets together into a figure that comports to previous rates and is used for external reporting.
