Official Undergraduate Retention Report Student Information \& Fiscal Services

## Persistence to the Second Semester

Vol. 9, No. 2

This report provides views on persistence to the second semester for the incoming full-time, beginner cohorts of 1997, 1998, and 1999. Consistent with the new cohort logic, students are defined to a cohort based upon their entry semester/status (fall or either previous summer session/degree-seeking beginner or transfer) and/or by their high school graduation date when appropriate.

As introduced in report 9.1, several new variables have been added to the report. The proportion of the incoming overall and beginner cohorts represented by the FTB subset is portrayed by percentages. This figure speaks to the composition of the cohorts at IUPUI and the regional campuses, and has been proposed as a new data element collected by IPEDS. Four levels of persistence by high school rank is provided as well as figures for the top five reported high schools. The raw cohort figures contained on these pages can become small when disaggregated by different variables. To protect student privacy, cells with a "began" number of ten or less are masked.

Summary views on the entire beginner cohorts and part-time beginner cohort subsets are available as an addendum to this report. Please contact us if you would like to receive a copy of this report. As always, your comments and suggestions are welcomed.

Persistence to the Second Semester by Cohort Status
