## Persistence to the Second Semester

Vol. 10, No. 2

This report provides views on persistence to the second semester for the incoming full-time, beginner cohorts of 1998, 1999, and 2000. Consistent with our cohort logic, students are defined to a cohort based upon their entry semester/status (fall or either previous summer session/degree-seeking beginner or transfer) and/or by their high school graduation date when appropriate.

An appendix (10.2.2) is available which includes state-wide technology (SWT) students in the retention figures. On six of the IU campuses, students may easily transfer among SWT and IU programs without leaving the campus. This additional view on retention credits SWT students back to the campus. Summary views on the entire beginner cohorts and part-time beginner cohort subsets are also available as an addendum to this report (10.2.1). Please contact us if you would like to receive either of these additional reports. As part of accepted practice in retention reporting, deceased students are now excluded from the cohort figures. To protect student privacy, cells with a "began" number of ten or less are masked.

As always, your comments and suggestions are welcomed.
