## Overview

### Fall Enrollment Overview

The Fall Enrollment component collects student enrollment counts by level of student, enrollment status, gender and race/ethnicity. In addition, first-time student retention rates and the student-to-faculty ratio are collected. Every other year data on residence of first-time undergraduates is required and in opposite years, enrollment by student age is required to be reported.

Institutions operating on a traditional academic year calendar (semester, trimester, quarter, or 4-1-4) report Fall enrollment as of the institution's official fall reporting date or October 15. Institutions operating on a calendar that differs by program or that enrolls students on a continuous basis (referred to as program reporters) report Fall enrollment as students enrolled any time during the period August 1 and October 31.

#### Data Reporting Reminders:

- Institutions must continue to report using the new race/ethnicity categories.
- Institutions must continue to use the new postbaccalaureate degree categories (eliminating the first-professional category and reclassifying those programs). All postbaccalaureate students are to be reported as graduate students for enrollment purposes, including any doctor's-professional practice students (formerly first-professional).
- Part B, Enrollment of students by age, is **required** this year.
- Part C, Residence of first-time degree/certificate-seeking undergraduates, is **optional** this year.

**Part E - First-time Bachelor's Cohort Retention Rates (Full-time)**

Retention Rates

**Full-time, First-time Bachelor's Cohort from Fall 2012**

Academic reporters determine the cohort and retention as of the institution's official fall reporting date or as of October 15. Program reporters determine the cohort with enrollment any time between August 1 and October 31, 2012 and retention based on August 1, 2013.

The retention rate is calculated by the system after clicking "Save" on the screen. Exclusions are subtracted from the original cohort and the resulting adjusted cohort is used for calculating the retention rate.

**Retention Data Reporting Reminders:**

- Include only **full-time, first-time bachelor's** students in this cohort.
- Determine the full-time cohort using Fall 2012 status (e.g. if a student was full-time in Fall 2012, report them in the full-time cohort regardless of their Fall 2013 status).
- If there are no students to report in the cohort, enter zero. Do not leave the field blank.
- Report in the exclusions box (line E2) the number of students from the cohort who left the institution for any of the following reasons: died or were totally and permanently disabled; to serve in the armed forces (including those called to active duty); to serve with a foreign aid service of the Federal Government (e.g. Peace Corps); or to serve on official church missions.

Retention Rates

Part-time, First-time Bachelor's Cohort from Fall 2012

The retention rate is calculated by the system after clicking "Save" on the screen. Exclusions are subtracted from the original cohort and the resulting adjusted cohort is used for calculating the retention rate.

**Retention Data Reporting Reminders:**

- Include only **part-time, first-time bachelor's-seeking** students in this cohort.
- Determine part-time using Fall 2012 attendance status (e.g. if a student was part-time in Fall 2012, report them in the part-time cohort regardless of their Fall 2013 status).
- If there are no students to report in the cohort, enter zero. Do not leave the field blank.

<b>Screen: Part A - Fall Enrollment by Distance Education Status</b>				
Screen Entry	All undergraduate non-degree/certificate seeking students exclusively enrolled in distance education courses are not expected to be reported under the same location category. Please correct your data or explain. (Error #6171)	Explanation	Yes	
Reason:	Ninety-two percent of these students are PT. Ninety percent of the part-time students are taking <=6 credit hours. These students probably have jobs, but still want to take college courses. DE courses makes this scenario possible.

<b>Screen: Part E - First-time Bachelor's Cohort Retention Rates (Part-time)</b>				
Screen Entry	The part-time, first-time bachelor's cohort reported in Part E (288) is outside the expected range when compared with the prior year value (Fall 2011 cohort). Please correct your data or explain. (Error #6805)	Explanation	Yes	
Reason:	Even though total enrollments were down in fall 2012 as compared to the previous year, the beginner student population had increased by almost 10%. This increase is a reflection of that change.
