Indiana University-East (151388)

Source	Description	Severity	Resolved	Options
Screen: Part C, Page 2 - Enter Information about Group 2				
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 5,528 and 8,292 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason:	The data have been checked and are accurate. The number of beginners electing to borrow private loans was small in both 2011-12 and 2012-13, so the average understandably varies from year to year.			
Screen: Part E - Enter Information about Group 4				
Screen Entry	The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	
Reason:	The data have been checked and are correct. The differences between 2011-12 and 2012-13 reflect a decrease at this family income level in private scholarships among in-state beginners, as well as a decrease in the number of participants in a state-funded grant program for reduced lunch students (also at this income level).
