Screen: Part C, Page 2 - Enter Information about Group 2				
Screen Entry	The average amount of this type of aid awarded to Group 2 students is outside the expected range of between 360 and 540 when compared with the prior year value. Please check the number of students and the total amount of aid awarded to these students, and correct or explain the discrepant values. (Error #7147)	Explanation	Yes	
Reason:	The data have been checked and are accurate. The change between 2011-12 and 2012-13 SEOG per-student amounts accounts for the change in the average. The standard per-student amount was reduced from \$500 to \$200 to allow awarding of many more students with the increased SEOG allocation in 2012-13.			
Screen: Part D - Enter Information about Group 3				
Screen Entry	The number entered is outside the expected range of between 143 and 263 when compared with the prior year value. Please correct your data or explain. (Error #7169)	Explanation	Yes	
Reason:	The data have been checked and are accurate. The overall number of Group 3 students increased from 2010-11 to 2011-12, and this increase represented those living with family more than the other housing categories.			
Screen: Part E - Enter Information about Group 4				
Screen Entry	The calculated average amount of grant or scholarship aid awarded to Group 4 students from the federal government, state/local government, or the institution for this income level is smaller than expected in comparison with the other income levels. Please check the values reported for the number of these students who were awarded any Title IV aid (Col. 1) and the total amount of grant or scholarship aid awarded to them (Col. 3) and correct your data or explain the discrepancy. (Error #7317)	Explanation	Yes	
Reason:	The data have been checked and are accurate. The primary reason for the decreased average amount between 2010-11 and 2011-12 is the end of the ACG Grant program, as well as a decrease in average Pell Grant amounts awarded to students with this family income level.
